

Religion Discussion Questions – Lesson #2

Grades 6th – 12th

1. Go back and read Ephesians chapter 6:10 -18. List all the weapons we need to have to conquer our spiritual enemies. It is important that we are prepared for battle!
2. List the reasons why prayer is so important in spiritual warfare. What about fasting? Or works of charity? How are you doing this summer as it relates to pray, fasting, and helping those in need?
3. In physical combat in this fallen world, soldiers need to train. In their special training, they learn how to use their weapons. They wake up early and go for long distance runs. At a single command, they are given the order to drop and do 20 pushups. They are made to run grueling obstacle courses. In spiritual warfare, how do we train? How do we learn how to use our weapons?
4. In wartime, it is important to be obedient to those in authority. What would happen if every soldier decided to do his or her own thing? Would the battle be won? Have you ever been in a situation – maybe on a team at school – where everyone was doing their own thing? How did that make you feel? How successful was the team?
5. In spiritual wartime, it is important to be obedient to God's will? What would happen if every soldier of Christ decided to do his or her own thing? Would the battle be won?
6. How do we determine what God's will is for our lives? Is it easy? Why would all this spiritual training be necessary in determining what God wants us to do with our lives?
